CHAPTER 1

Choose a Topic and Create a Practice Quiz with Explore

Create personal practice by choosing a grade, subject, and learning units in Explore.

1.1

Choose the Grade Level

- 1 Open Explore.
- 2 Choose the grade level for the practice quiz.

Open Explore from the bottom navigation. The red outline marks the button.

Choose the grade level. Primary 6 is highlighted in this example.

1.2

Choose the Subject and Learning Units

- 1 Choose the subject.
- 2 Choose up to five learning units you want to practise.
- 3 Select Create Quiz.

Choose a subject, use the tick buttons to select learning units, and then press Create Quiz. The red outlines mark each control.

Generate a Practice Quiz

- 1 Choose the expected duration and number of questions.
- 2 Select Custom Made.
- 3 Choose the explanation language.
- 4 Select Confirm.

Question Bank

Question Bank is another option for supported learning units. It uses suitable existing questions.

Set the quiz duration and number of questions, then select Custom Made. The red outlines mark all three controls.

Choose the explanation language, then press Confirm. The red outlines mark both controls.

Review the Generated Quiz

- 1 Check the quiz title, grade level, subject, number of questions, and duration.
- 2 Check the description and learning units before starting.

When generation finishes, Hoppy opens the Quiz Info page.

CHAPTER 2

Turn an Idea or Learning Material into a Practice Quiz

Create personal practice from a description, suitable learning materials, or both.

2.1

Describe the Practice Quiz

- 1 Open Create.
- 2 Describe what you want to practise. You can include the subject, grade level, topic, or a specific difficulty.
- 3 Select the arrow to continue.

Open Create from the bottom navigation. The red outline marks the button.

Enter the quiz description, then press the highlighted arrow.

2.2

Add Learning Materials — Optional

- 1 Select the plus button.
- 2 Choose Add Images, Add Documents, or Take Photos.
- 3 Add the learning materials you want Hoppy to use.
- 4 Select the arrow to continue.

Use suitable material

Do not upload personal information or material you are not permitted to use.

Use the highlighted menu to add reference materials.

2.3

Confirm the Quiz Context

- 1 Check the detected subject, grade level, and language.
- 2 Correct any selection that does not match the practice you want.
- 3 Select Confirm.

Check the detected subject, grade level, and language, then press Confirm.

2.4

Select the Learning Units

- 1 Select at least one matching learning unit.
- 2 Select Confirm.

Select the learning units for the quiz, then press Confirm.

2.5

Choose the Quiz Settings

- 1 Choose the expected duration and number of questions.
- 2 Select Custom Made.
- 3 Select Confirm.

Set the duration and question count, select Custom Made, and then press Confirm.

2.6

Review the Generated Quiz

- 1 Check the quiz title, grade level, subject, number of questions, and duration.
- 2 Check the description and learning units before starting.

CHAPTER 3

Take a Quiz and Review Your Results

Complete a quiz, learn from its feedback, and review your attempt.

3.1

Open a Quiz

- 1 Open the quiz information page.
- 2 Check the topic, number of questions, and expected duration.
- 3 Select Start.

You can open a quiz you created, find one through Explore or search, or open a quiz shared by link or QR code.

Select Start to begin the quiz.

Answer the Questions

- 1 Choose an answer.
- 2 Select Submit.
- 3 Select Next when you are ready to continue.

XP rewards

After you finish the quiz, you receive 1 XP for each correct answer.

After submitting an answer, review the feedback, open the explanation if needed, and select Next.

After the quiz is complete, Hoppy awards 1 XP for each correct answer.

3.3

Read the Feedback and Explanations

- 1 Read the feedback after submitting an answer.
- 2 Select Show explanation where it is available.
- 3 Check why the answer is correct before continuing.

After selecting Show explanation, Hoppy expands the worked explanation below the feedback.

3.4

Finish the Quiz and Review Your Attempt

- 1 Select Finish Quiz after the last question.
- 2 Review the result summary.
- 3 Open your attempt to review the questions, your answers, and the explanations.
- 4 You can return to the quiz later to open an earlier attempt.

Open View All Attempts to review your earlier scores and completion times.

Report a Problem

- 1 Open the question you want to report.
- 2 Select Report.
- 3 Choose the reason that best describes the problem and submit it.

Select the flag to report a problem with the current question.

Choose the reason that best describes the problem.

CHAPTER 4

Join a Classroom and Find an Assignment

Join your teacher's classroom and open the work they assigned.

4.1

Join with a Classroom Code

- 1 Open Classroom.
- 2 Select Join Classroom.
- 3 Enter the six-character code from your teacher.
- 4 Select Join.

Enter the six-character classroom code, then select Join.

4.2

Join with an Invitation Link or QR Code

- 1 Open the classroom link from your teacher, or scan the classroom QR code.
- 2 Open the classroom in Hoppy.
- 3 Select Join.

Your teacher may send the classroom invitation as a link.

Your teacher may also provide a classroom QR code for you to scan.

When the classroom opens in Hoppy, select Join. The red outline marks the button.

4.3

Open Classroom Assignments

- 1 Select Classroom from the bottom navigation.
- 2 Choose the classroom.
- 3 Open the Assignments tab.

Select Classroom from the bottom navigation. The red outline marks the tab.

Choose the classroom to open its information page.

Open the Assignments tab, then select the assignment card. The red outlines mark both.

4.4

Open an Assignment

- 1 Find the assignment from your teacher.
- 2 Select it to view its quiz, notes, publication time, and due time.

The red outlines identify the publication time and due time.

CHAPTER 5

Complete an Assignment and Review Your Result

Finish classroom work, check its status, and review your own result.

5.1

Check the Publication and Due Times

- The publication time tells you when the assignment becomes available.
- The due time tells you when the assignment should be completed.

Check when the assignment is published and when it is due. The red outlines mark both times.

5.2

Start the Assignment

- 1 Open the assignment after its publication time.
- 2 Read the title and any notes from your teacher.
- 3 Select Start.

Read the teacher's notes, then select Start. The red outlines mark both areas.

5.3

Complete and Submit the Assignment

- 1 Answer each question and read the feedback.
- 2 Select Finish Quiz after the last question.
- 3 Follow the result screens to finish the attempt.

5.4

Review Your Attempt and Learning-Unit Results

- 1 Open the completed assignment.
- 2 Review your score and completion information.
- 3 Open View Attempt to review your answers.
- 4 Check the learning-unit results when they are available.

Green numbers mark correct answers and red numbers mark incorrect answers. Select a number to review that question.

Check Your Assignment Status

- Not Started means the assignment has not been completed.
- Completed On Time means it was completed by the due time.
- Completed Late means it was completed after the due time.
- Overdue means the due time has passed and it has not been completed.

The assignment page records the completion status, best score, completion time, and learning-unit results.

Create Follow-Up Practice

Generate similar practice from your completed result and try it.

6.1

Generate a Similar Quiz from Your Result

- 1 Open a completed assignment.
- 2 Select Generate Similar Quiz.
- 3 Choose the practice focus, difficulty, number of questions, and time limit.
- 4 Select Confirm.

Available after completion

Similar practice is available after your assignment attempt has been completed.

Review the learning-unit results, then select the follow-up quiz button.

Choose the focus and difficulty, set the duration and question count, then select Confirm.

Complete the Similar Quiz

- 1 Open the generated quiz.
- 2 Complete the questions and read the explanations.
- 3 Review the new result and compare what improved.

Complete the generated quiz in the same way as your other Hoppy quizzes.

Review the result and explanations to see what improved.

CHAPTER 7

Learn Safely and Responsibly with Hoppy

Protect personal information and use generated learning content carefully.

7.1

Protect Personal Information

- Do not enter private information about yourself or another person in a quiz description.
- Do not upload documents or photos containing personal information.
- Ask a teacher or trusted adult if you are unsure what is safe to share.

7.2

Use Only Appropriate Learning Materials

- Use notes and learning materials you are allowed to use.
- Do not upload another person's work without permission.

Check AI-Generated Answers and Explanations

- Check surprising answers against your notes or another reliable source.
- Ask a teacher when an answer or explanation does not seem right.
- Use Report to tell Hoppy about a problem with a question.

Hoppy can generate questions and explanations with AI. AI-generated content can contain mistakes.

After selecting Show explanation, Hoppy expands the worked explanation below the feedback.

Select the flag to report a problem with the current question.

Choose the reason that best describes the problem.

Ask a Teacher or Adult When Unsure

Ask a teacher or trusted adult for help with unsafe material, confusing instructions, account access, or anything that makes you uncomfortable.

CHAPTER 8

Solve Common Problems and Get Help

Check common quiz, classroom, and assignment problems before contacting support.

8.1

Cannot Find a Subject or Learning Unit

- Check the selected grade level.
- Check the selected subject and browse its learning units.
- Ask your teacher which grade, subject, or learning unit to use.

Choose a subject, use the tick buttons to select learning units, and then press Create Quiz. The red outlines mark each control.

8.2

Cannot See an Assignment

- Check that you joined the classroom from your teacher.
- Check whether the assignment publication time has arrived.
- Refresh the classroom assignments list.

8.3

Cannot Open or Finish a Quiz

- Check your internet connection and try again.
- Close and reopen the quiz.
- Ask your teacher whether the assignment is still available.

8.4

Report a Problem with a Question

Open the question, select Report, choose the reason, and submit the report.

Select the flag to report a problem with the current question.

Choose the reason that best describes the problem.

8.5
